

# Report to the Auburn Urban Development Authority

Action Item

Agenda Item No.

City Manager Approval

To:

Chair and Authority Board Members

From:

Bernie Schroeder, Director of Public Works

By:

Carie Huff, Associate Civil Engineer

Date:

April 25, 2011

Subject:

Streetscape Phase 2 Project - Award

### The Issue

Shall the AUDA award the Auburn Streetscape Phase 2 Project to the lowest responsive bidder?

### Conclusion and Recommendation

Staff recommends that the Auburn Urban Development Authority, BY RESOLUTION, authorize the Director of Public Works to execute a construction contract with Hansen Brothers Enterprises for the Auburn Streetscape Phase 2 in an amount not to exceed \$1,023,705.10.

# **Background**

At the March 28, 2011 meeting, the Auburn UDA rejected all bids for Streetscape Phase 2, directed staff to reduce the project scope and authorized permission to advertise the project again. The reduced project scope included all undergrounding and utility replacement, streetlights, curb, gutter and sidewalk placement from Joe Elder Bus Terminal to just past Pine Street. Additive alternates include asphalt paving overlay, addition of color to the sidewalk, decorative treatment of existing signal poles, irrigation and planting. PCWA is also replacing their waterline during construction. Their portion of the project is approximately \$90,000.

The bid opening was on April 14, 2011 and the City received four bids. The bidders are as follows:

- 1. Hansen Brothers Enterprises of Grass Valley with a base bid of \$818,096.00 and a total bid of \$930,641.00.
- 2. Cook Engineering of Rancho Cordova with a base bid of \$860,307.95 and a total bid of \$986,506.65.
- 3. Gabe Mendez of Newcastle with a base bid of \$869,876.55 and a total bid of 1,000,285.80.
- 4. Westcon Construction of Newcastle with a base bid of \$919,180.75 and a total bid of \$1,056,272.75.

All of the bids have been reviewed and Hansen Brothers Enterprises is considered the lowest responsible bidder.

# Alternatives Available to Authority; Implications of Alternatives

Given the unstable environment surrounding redevelopment funding the Streetscape Phase 2 Project was advertised with a base bid with 6 additive alternatives to allow the Authority flexibility with awarding the project. The base bid includes items essential to the utility undergrounding and sidewalk improvements and the add alternates are items more suited to being phased in at a future date if necessary as funding is secured. Specifically, add alternates include colored concrete, landscaping and final paving (refer to Bid Summary). With this flexibility the project can be awarded with any combination of the alternates to the base bid.

The Attached Exhibit A - AUDA Project Lists includes items that have been authorized and those being considered by the AUDA at this time. Significant projects such as the reconstruction of a paved area owned by the Procissi Family in Old Town into a parking lot with street lights and new pavement has been estimated at approximately \$50,000. There has also been considerable discussion about converting the Central Square street lighting into a softer light which has been estimated at \$35,000.

Currently, there is approximately \$1,826,598.00 in AUDA funds designated for projects. Previously authorized redevelopment projects together with those being considered including the award of the entire Streetscape Project 2 (with all six add alternates) will produce an approximate \$18,000 short fall in funding. In order to mitigate this short fall, the Authority could consider the following options:

- Move forward with the Procissi Parking Lot in Old Town and omit the landscaping portion
  of Streetscape (add alternate #6). This project would be brought back to the Authority for
  final action.
- Move forward with the Procissi Parking Lot Project and omit the Central Square streetlight conversion.

# Alternative Options:

- 1. Accept Staff Recommendation
- 2. Amend Staff Recommendation Award Streetscape Phase 2 Project with base bid plus Alternatives 1 5 for a total of \$963,927.80
- 3. Consider other award options and base bid combinations
- Take no action

Note: If this project is awarded utilizing the base bid with different additive alternates combination, the Resolution shall be modified to reflect that Authority directive.

### Fiscal Impact

The contractor's base bid for this project was \$818,096.00 with a total bid of \$930,641.00 (including all additive alternates); however, pursuant to Resolution 92-50, the Auburn Urban Development Authority shall award capital projects based on the lowest responsible bidder plus a 10% contingency. Therefore, the total award amount including the contingency shall not exceed \$1,023,705.10. Funding for this project is out of the AUDA budget. The engineer's estimate of the cost of construction was \$994,630.

# Additional Information

If awarded the construction is scheduled to begin May 18<sup>th</sup>, 2010 with substantial completion in Fall of 2010.
